SUMMARY

Data science enthusiast with strong analytical thinking and a problem-solving mindset. Skilled in interpreting data, identifying patterns, and generating meaningful insights to support decision-making. Interested in predictive modeling, trend analysis, and building data-driven solutions that create real-world impact.

EDUCATION

- Malla Reddy University, Hyderabad** 2022 – 2026
B.Tech in Computer Science and Engineering (Data Science) CGPA: 7.70

WORK EXPERIENCE

- Foundever** Jan 2026 – May 2026
Customer Support Associate
– Handled customer issues using CRM tools, ensuring efficient resolution and accurate data management.
– Analyzed customer queries to identify patterns and improve process efficiency.
– Collaborated with teams to resolve technical issues while strengthening problem-solving and communication skills.
- Vensyxx Data Solutions Pvt. Ltd.** Sep 2025 – Nov 2025
Software Development Intern
– Developed Python-SQL web modules improving data handling efficiency and application performance.
– Collaborated on feature design, debugging, deployment, and performance optimization.

TECHNICAL SKILLS

- Programming & Web:** Python, Java, R Programming, HTML, CSS, JavaScript
- Data & Analytics:** Pandas, NumPy, Excel, EDA, ETL, Data Cleaning, Statistical Analysis, Power BI, Tableau
- Databases & Tools:** MySQL, Git, Jupyter Notebook, REST APIs, Overleaf (LaTeX)
- Core Concepts & Cloud:** Object-Oriented Programming (OOP), Data Structures (Basics), AWS

CERTIFICATIONS

- Programming Fundamentals – Duke University
- Python Basics – Coursera
- Command Line Basics in Linux – Coursera Project Network
- Accenture Data Analytics Job Simulation – Forage

TECHNICAL PROJECTS

- Car Pooling** Nov 2024 – Apr 2025
– Built a full-stack carpooling application using React and Spring Boot, achieving 92% ride-matching accuracy and integrating real-time maps and payment systems.
– Integrated Google Maps API for real-time location tracking and implemented cost-splitting with cashless payments.
– Tech Stack: React, Java (Spring Boot), MongoDB, JavaScript .
- Bill Boss** Jun 2024 – Oct 2024
– Analyzed 1,000+ financial transactions to generate actionable budgeting insights.
– Built automated alerts and interactive dashboards to track expenses and spending patterns.
– Tech Stack: Python, MySQL, JavaScript, HTML, CSS .
- Small Chip Big Impact** Jan 2024 – May 2024
– Analyzed system performance across graphics, multitasking, and data processing to evaluate efficiency improvements.
– Compared different configurations to identify performance bottlenecks and optimization opportunities.
– Tech Stack: HTML, CSS, JavaScript, R.

INTERESTS & SOFT SKILLS

Leadership, Team Collaboration, Public Speaking, Communication, Problem Solving
